

2025 HPV Vaccination Promising Practices Series

Cancer Prevention with Bold Innovation

The American Cancer Society (ACS) and the ACS National HPV Vaccination Roundtable (HPVRT) are inviting health professionals to learn about the latest evidence-based practices to improve HPV vaccination among adolescents aged 9–13 nationwide. Join us for this informative quarterly series!

This no-cost educational opportunity is designed to foster the exchange of successful strategies and practical approaches to improve HPV vaccination rates across healthcare settings, public health programs, and community-based organizations. This series will bring together healthcare providers, public health professionals, and community stakeholders to discuss promising practices, address common barriers, and learn from each other's experiences to drive improvements in HPV vaccination.

Save the Dates!

Session 1: Back to the Basics

March 26, 2025
2pm-3pm EST

Session 2: Systems Interventions

June 25, 2025
2pm-3pm EST

Session 3: Provider Interventions

August 27, 2025
2pm-3pm EST

Session 4: Patient Interventions

November 19, 2025
2pm-3pm EST

Register here!

*Registration is rolling.
Join us at any time throughout the year!*

Participation Benefits

Participants will have an opportunity to:

- Learn evidence-informed interventions from subject-matter experts
- Adopt implementation strategies to close care gaps
- Explore ACS & ACS HPVVRT resources
